

# **IISS «E. Giannelli»**

Headed  
to the ECCELLENCE

The IISS "GIANNELLI" fits into the territorial context, enhancing its cultural, environmental and instrumental resources by operating in the perspective of the integrated training system.

The training offer is wide and diversified: the curricular teaching activity offers a rich range of educational proposals that allow the pupils to develop their specific potential.

The flagship projects were the Comenius in the past, and Erasmus+, school-work alternation projects and internship activities in local companies.

Particular attention is paid to the training of adults, who attend Evening Courses.

# GIANNELLI

## training offer

The I.I.S.S. Giannelli is a school structured into 4 locations in 4 different towns in the South of the Salento Peninsula, in Italy:

Parabita (the headquarter, where the headmaster and the management offices are), Gallipoli , Alezio and Casarano.

The 4 venues are all in the same area, a few kilometres separate one from the other and not far from Lecce (45 km.).

**IISS “E. Giannelli” is a high school which lasts five years (roughly from age 14 to 19) and involves an exam at the end of the final year, required to gain a degree and have access to further education.**

**At the conclusion of the 5-year school courses**

**Students will have:**

- **a solid cultural background and the skills to entering the world of work (working in a company or in an independent activity);**
- **the possibility of going on with their studies at University or further specialization with higher technical training courses;**
- **the pleasure of understanding the world around them and participating in its transformation**

Since the school year 2007-2008 up to now, with the assignment of the new headmaster, Mr. Cosimo Preite, teacher, educationalist

And expert in youth policies, the I.I.S.S. "E.Giannelli" has had a huge transformation by enriching its training offer with new educational paths, new locations and a new management policy that has internationalized the school.

The new management has opened the institute to the territory by viewing at the school as the core of the socio-cultural growth of the area and as a mediator of the demands coming from contemporary society.

## CASARANO
